SUMMARY

UX/UI designer with research-driven work across web and mobile, currently designing a role-based construction management platform. Experienced in information architecture, design systems, usability testing, and turning research and stakeholder insight into intuitive products.

SKILLS & TOOLS

Skills: User research, usability testing, journey mapping, personas, information architecture, wireframing, interactive prototyping, design systems, accessibility (WCAG), Agile/Scrum

AI & Build: Claude Code, AI-powered research and synthesis, rapid prototyping, front-end code generation, HTML/CSS, Webflow, Shopify

Tools: Figma (variables, components, auto layout), FigJam, Miro, Adobe Creative Suite, Canva

PROFESSIONAL EXPERIENCE

Amrak Solutions | Mar 2026 – Present | Media & Advertising | Remote

UX/UI Research & Design | Jun 2026 – Present

- Design UX/UI for Herdl, a client's role-based construction project management platform connecting office teams and field crews, working closely with the lead on design decisions.
- Translate research personas and journey maps into task flows, sitemaps, and permission-based information architecture covering 6 user roles, 3 access states, and about 8 permission areas.
- Designed about 190 desktop and mobile screens and 22 prototype flows across 9 modules, including budget tracking, invoice review, cost-variance analytics, and team task assignments.
- Built and maintain Herdl's Figma design system: about 55 components (165 variants) built on 67 tokens and 23 text styles, with accessible color contrast and type scales.
- Work in two-week Agile sprints with 2 lead developers, a UX researcher, and client stakeholders, iterating from low to mid fidelity through dev handoff and presenting at sprint reviews.

Digital Design Director (Interim) | Mar 2026 – Jun 2026

- Led the Passion+ marketing website end to end, from audit and strategy through design, build, and launch, managing 2 design associates.
- Shipped 6 landing pages in under 10 weeks, concept to launch, ahead of schedule and praised by the client for delivery efficiency.
- Ran a severity-rated heuristic evaluation and full sitemap of the Amrak and Passion+ sites in week one, surfacing navigation gaps, orphan pages, and mobile friction to align leadership.
- Restructured information architecture and messaging around a problem, solution, and proof narrative, and unified navigation across the parent and subsidiary brands with a global header.
- Built the Passion+ style guide in Figma, defining color, typography, a tiered button system, and interaction motion that kept Passion+ visually tied to the Amrak brand.
- De-risked a high-complexity backend build by scoping technical feasibility and trade-offs with front-end engineers and technical leads, keeping launch milestones on time.

UX/UI Freelance Consultant | Jan 2025 – Present | Remote / Denver, CO

Independent UX/UI design and product strategy consultant for e-commerce, marketing tech, media, and early-stage AI clients, spanning UX research, heuristic audits, information architecture, and end-to-end product design.

UX/UI Product Designer & Strategist – Omakase Art Collective | Mar 2025 – Present (Advisory) | Denver, CO

- Used Show 1 interviews and room surveys to pivot from fixed pricing to a gamified silent auction, reaching 41% inventory sell-through at Show 2 (13 of 32 pieces).
- Grew art sales revenue 44% to $1,595 at Show 3, co-hosted with West + Main Homes, while raising the average price per piece.
- Architected a custom Shopify-integrated silent auction and checkout with real-time mobile bidding, countdown timers, and automated winner notifications, linking live pop-up sales to digital purchasing.
- Set up and configured the Shopify marketplace, with artist profiles, a catalog filtered by artist, series, availability, and price, and post-show print sales.
- Led brand strategy, visual identity, and marketing, including motion graphics for marketing content.

UX Researcher & Product Designer – AI Veterinary Care App (Contract) | Apr 2025 – May 2025 | Remote

- Interviewed a vet, a vet assistant, and pet owners to identify priority task flows and features for an early-stage AI pet health app.
- Built lo-fi screens and information systems for structured, taggable health logging, designed to reduce data-entry errors for multi-pet households.
- Explored multi-pet profiles with photo-based pet identification and a health summary with medication reminders for vets and pet sitters.

UX Researcher & UI Designer – LYNK, AI Horse-Racing Betting Assistant | Jan 2025 – Fall 2025

- Translated a sophisticated AI betting model into an approachable mobile chat experience for casual horse-racing fans, working with 2 developers.
- Found through Kentucky Derby launch testing that users relied on guided prompts over free text, which had the highest bounce rate, and shipped a structured suggested-prompt system with lightweight onboarding.
- Launch drew 25,397 visitors in 2 days, 4,100 signups, and 78,000+ social views, with 50% of users engaged for over 2 minutes.
- Benchmarked FanDuel, TVG, and TwinSpires and ran heuristic reviews, stakeholder interviews, and affinity mapping to shape a prompt-first UX framework.

Graphic Designer & Digital Marketing Consultant | Jun 2018 – Feb 2025 | Reilly Sullivan Design | Remote / Denver, CO

- Designed event flyers, signage, merchandise, packaging, and web and social ads for restaurants, venues, a music label, startups, and vacation homes, valued for quick turnaround and brand-aligned work.
- Delivered vacation rental signage and staff apparel, coordinating lighting, sizing, and installation with the sign fabricator.
- Designed T-shirt merchandise and 10+ flyers for all.lo collective, a 4-artist music label, plus a recipe book for a local caterer.

EDUCATION

UX/UI Design Certificate – University of Denver | Sep 2024

Bachelor of Arts, Communication – Minor in Marketing – University of Denver | Jun 2018
